

# User Needs

As a...	I want to...	So that...
Stock controller	Record inventory in store room	We know what we can sell, and what needs ordered
Stock controller	Record new product lines and manufacturers	Other staff can see the details, place orders, and serve customers
Manager	Know how much discontinued stock I have	I can adjust prices to help sales
Sales assistant	See a list of products in stock	I can sell these to customers
Sales assistant	Find different stock options, eg sizes	I can always have another option to sell to a customer
Manager	Direct customers to the manufacturer's phonenumber	After-sales queries are handled properly
